

AFFIRM OUR MORAL VALUES

Thursday, November 18, 2004

6:15 PM - 8:15 PM

In this past election, we saw “morality” redefined to be little more than opposition to abortion and gay marriage.

- **But, what about war’s cost to civilians and society?**
- **What about taxes being cut for the wealthy while poor and working poor people were forced out of social programs that support basic needs?**
- **What about the pollution of our environment?**
- **What about spreading fear against GLBT and immigrants?**
- **What about the death penalty?**

These are moral values and we cannot allow morality to be defined to not include them.

Please join faith-based and other activists for a meeting to design a strategy for speaking the truth about our broader agenda and definition of morality through the media, our places of worship and other organizing.
